Are you looking for a good quality second hand profile cutting machine ?

We much prefer the term “*previously enjoyed*”, particularly the machines supplied and serviced by our support team !

Kerf places a large emphasis on post sales support for all the products that we offer and that extends to any *previously enjoyed* machine that we offer to our customers.

In this section you will find a range of high definition plasma cutting equipment, oxy-fuel machines and *previously enjoyed* plasma units.

KERF RUR2500p (Ex-Demonstration)

Plasma Consumables

Kerf Developments are one of the leading plasma consumable suppliers in the UK & Ireland and hold large stocks of competitively price products for a range of plasma machines for next day delivery. Kerf holds a large stock of genuine Hypertherm consumables and genuine Kaliburn consumables.

These are complimented with the highly acclaimed Premium Plus plasma range of consumables that offer excellent consumable life, first class cut quality and value for money. Kerf also holds a wide range of spare parts for Hypertherm, Kaliburn and Harris.

Please contact our consumables division with your requirements. E-mail consumables@kerfdevelopments.com

Previously enjoyed equipment

Should you have any equipment that is surplus to requirements or needs replacing with something that better suits your current requirements then please contact Kerf. We would be interested in equipment (complete machines, control systems, height control systems and plasma units) suitable for rebuilding and/or breaking for spare parts.

Of interest to us would be good quality gas cutting and plasma cutting machines or spare parts including :-

- Air Liquide
- Esprit Automation Lightning or Viper
- ESAB
- Farley
- Hypertherm Hydef HPR 130 HPR 260
- Hypertherm Hyperformance HPR130 HPR260 plasma spares
- Hypertherm consumables
- InnerLogic plasma units
- InnerLogic INOVA height control
- InnerLogic consumables
- Kaliburn plasma units
- Kaliburn spare parts
- Kaliburn consumables
- Kemper
- Messer Griesheim
- SAF
- Techserv
